

导读:据NHK报道,近日台湾地区领导人蔡英文在就职一周年前夕,公开叫板北京,“奉劝”中国放弃“一个中国”政策。

Tsai made a speech before an overseas group on Friday. She admitted that she has achieved little to revitalize the economy and narrow the wealth gap among Taiwanese people.

On relations with China, she said old problems should be left in the past, adding that leaders face a new task of keeping peace and prosperity on both sides of the strait.

Taiwan's ties with China have chilled since Tsai took office. Beijing has intensified diplomatic pressure on the island over the past year.
