《美国男子屋内喷满蟑螂药：小强没死 房子炸飞》

t's a nightmare come true when you've got a cockroach infestation in your house.

????????????

It can drive you crazy, cause sleepless nights and cause a lot of damage.

??????????????????????

So when it all gets too much, what do you do?

??????????????????????

You take matters in to your own hands, like this man, who doused his house in roach spray hoping it would do the trick.

????????????????????????????“??”????

Except it all went wrong when the buildup of fumes from the household insecticide led to an explosion, which tore apart the house.

??

To make it worse, the cockroaches were still there after the blast.

?????“??”???????????

The two adults and a young child who were inside the apartment at the time were taken to hospital as a precaution.

??????????????????????

The blast smashed all the apartment's windows.

??????????????

According to the city's code enforcement officer, the roach spray did not have the intended effect.

??????????????????????????

Garrett M. Giberson said: ‘The unit was infested with roaches. When I got on scene I saw numerous roaches crawling throughout the apartment.'

???·M·??????“????????????????????????????”

He explained how the occupant began experiencing a headache and opened a window after spraying the insecticide.

????????????????????????????

'You had the chemical, you had the oxygen and you had the ignition source,' he said.

????“???????????????”

‘The tenants are lucky because they could have been seriously injured. There had to be quite a buildup of chemicals and fumes from the bug killer to cause an explosion like that.'

“??”

The residents are now in temporary shelter provided by The American Red Cross.
