

《Crossover: China sees housing sales stabilised and recoverin》

We now turn to my colleague Tian Wei, who's at the Great Hall of the People.

Q1: Tian Wei, the housing authority said China is seeing housing sales stabilized and recovering. Give us more on that.

Q2: The CPPCC's annual meeting has ended and the NPC is about to close. You have been following the Two Sessions, and talked to deputies and political advisors. What did they say about China's prospects for the near future?
