

《中国发布一系列“太空计划”》

4月24日是首个中国航天日，中国官方于当天发布了一系列令世人瞩目的航天大项目。其中包括火星探测计划和中国空间站完成建设等。

???????

China has released details of a series of ambitious plans for space exploration in the coming years. They include the country's Mars mission probe set to be launched around 2020, as well as the completion of China's space station in 2022.
