导读:华盛顿（CNN报道）唐纳德·特朗普周二赢得华盛顿初选，这让他离拿下共和党候选人还差不到10张选票。

Washington (CNN) Donald Trump is less than 10 delegates shy of clinching the Republican presidential nomination following a win Tuesday in the Washington state primary.

The victory -- winning at least 40 of Washington's delegates -- means Trump now has 1,229 of the 1,237 delegates he needs to clinch the GOP nomination, according to CNN estimates. Four more Washington delegates are still to be decided, potentially bumping Trump's total even higher.

Washington didn't have enough delegates to put him over the line Tuesday. Its results do, however, leave him inches short of it with a slate of contests on June 7 in California, New Jersey, New Mexico, Montana and South Dakota sure to seal the deal.
