EU referendum result: Message from the Vice-Chancellor

Message on behalf of Vice-Chancellor Professor David Richardson

Dear Emma

Today's EU referendum result is not what I hoped for and is not what we at UEA campaigned for. For many in our university community the decision to leave the European Union will be a deeply disappointing and upsetting outcome.

The fact remains, however, that the people of the UK have made their views known and now we need to consider the implications. Our main concern at this time should be for those who are worried by the outcome of the referendum. I would like to reassure you that all of our staff, students and alumni from the family of EU nations are hugely valued and I will ensure that UEA remains a welcoming and supportive place to study and work.

Please bear in mind that as of today nothing material has changed. The process of leaving the EU will not happen overnight. The Lisbon Treaty sets out a two year negotiation process between the UK and other Member States, during which time the terms of our exit from the European Union will be decided.

We will be working with Universities UK to get answers to the longer-term questions and to press our Government to ensure the UK remains a welcoming place for the brightest and the best staff and students from other EU countries.

Professor David Richardson, Vice-Chancellor

😂????????????

Just days after voting to leave the European Union, more than 2 million Britons and UK residents had signed a petition calling for a second vote, forcing lawmakers to at least consider a debate on the issue.??

Parliament has to consider a debate on any petition posted on its website that attracts more than 100,000 signatures.[????????????????10000????????????
