

《双语：重庆第1双胞胎村 一个村里39对双胞胎》

A village in China has hit the spotlight after it was revealed that a high number of its residents are twins.

????????????????????????????????

Qingyan, a rural village in mountainous Chongqing, has only 367 households but 39 pairs of twins reports the People's Daily Online.

????????????????????367????????????????????39????

Over time, Qingyan has become known as twin village with the local primary school containing a set of twins in almost every class.
