《空中骑行：自行车也能飞上天》

导读:昨日，俄罗斯《消息报》报道称，俄罗斯的一家公司已经研发出了一款会飞的自行车，快来一睹真容吧！

The flying bike Scorpion 1, capable of moving at a speed of 100 kilometers per hour, has been developed by the Russian companyHoversurf, the Russian newspaperIzvestia?reported.

??????????????????Hoversurf???????????????????Scorpion 1?????100??/??

In an interview with the Izvestia, Hoversurf founder Alexander Atamanov described the Scorpion 1 as a heavy multi-rotor manned copter.

Hoversurf??????????·????????????Scorpion 1??????????????

At the same time, he said that in the future, more attention will be paid to the use of heavy unmanned aerial vehicles.

????????????????????????????????

We proposed the concept of a flying motorcycle for promotion purposes even though we know that in terms of market prospects it is heavy drones that will be in great demand, he said.

“??”?????

Atamanov added that his company is ready to make such a motorcycle if it receives an individual order, but that people are still wary of buying such aircraft.

??

According to him, the Scorpion 1 is equipped with an engine with batteries allowing the flying bike to remain in the sky for about twenty minutes.

He said that the company has already developed a hybrid version which will use hydrocarbon fuel.

????????????????????????????????

The Scorpion 1 is already available for pre-order and costs 52,000 dollars (about 3.3 million rubles), according to the company’s website.
