

《伦敦将开3D打印餐厅：花2000元吃一堆浆糊》

导读:一家全3D打印餐厅将在伦敦开业，新奇的料理方式吸引了大批吃货的注意。

It sounds like the future — a restaurant where the food you eat is printed, and even the utensils you eat with are too.

????????????????--????????????????????????????????

Well, now it's happening. Food Ink, the world's first 3D-printing restaurant, opens in Shoreditch this month.

????????????????3D????Food Ink????????????????

During the day there'll be chance to taste 3D-printed snacks, you can try using 3D printers and pens, and lounge on 3D-printed furniture.

????????????????3D????????????????3D????3D????3D????????????

In the evening, (if you can fork out 250 pound) there's a multi-sensory nine-course taster menu made using the printers by Joel Castanye of Michelin-starred El Bulli and La Boscana.

????????????250??3D??????????

There's only 10 tickets available for each night and demand is expected to be very high.

????????????10????????????????????
