

Doha, Qatar

??,???

Qatar's Doha is predicted to be one of the rising stars in terms of per capita GDP. The country is already among the richest in the world, and huge investments ahead of the 2022 Soccer World Cup are set to give it extra boost.

??2022????????????????????????????

Bergen, Norway

???????

It is already at the forefront of the country's economy, but McKinsey's researchers predict it will rise to become one of the richest cities globally. It serves as the hub for Norway's energy industry, shipping, and marine research.

Trondheim, Norway

???????

Another Norwegian city on the list, Trondheim is the birthplace of mobile tech. It is where the GSM standard was invented in the 1980s.

??GSM????????????

Since then, the local tech scene has been booming, and now boasts over 550 startups with more than 10,000 employees, according to officials.
