

《联想发布第一财季财报:净利润暴增64%》

导读:日前,世界最大个人电脑制造商联想发布了2016年第一财季财报,显示净利润增长了64%,达到了1.73亿美元(约合1.32亿英镑),超过了市场预期。

The world's biggest personal computer-maker, Lenovo, said first-quarter earnings rose 64% to \$173m (132m pound), beating market expectations.

????????????????2016????????????64%????1.73????1.32????????????

The Chinese firm said its PC business had delivered "strong profits" despite a slowdown in the overall market.

????????????????????????????????????"????"?

However, revenue fell by 6% from a year earlier to \$10.1bn in the three months to June.

????????????????6%???101????

Lenovo attributed that to the "challenging" environment and the decline in China's currency.

?????????"???"????????????????????????????

The Chinese firm has been aggressively cutting costs and investing in new growth areas such as cloud computing.
