

《警告！俄罗斯正着手全面入侵乌克兰，欧洲也将束手无策》

导读:自2014年以来，乌克兰政局出现动乱，而后东部各州纷纷闹独立，克里米亚甚至脱乌入俄，乌俄两国交恶。近日，乌克兰总统警告，不排除俄罗斯全面入侵乌克兰。

Ukraine's president has warned that a full-scale invasion from Russia could be on the horizon - with Europe powerless to fight the Kremlin's 'aggression'.

??“??”?

Petro Poroshenko made the statement at the opening of the country's September parliament session today.

??-??

He warned that with Europe's internal strength being tested by the migration crisis and terrorist attacks, elections across the continent could see governments come to power which are more willing to compromise with Russia.

??

Poroshenko said: 'Ukraine will continue to need strong international support in the fight against Russian aggression.

???????“??”

But securing this support is becoming increasingly difficult for our diplomats due to different objective and subjective factors.'

“??”

The ongoing conflict in the Donbass region between Ukrainian troops and pro-Russian separatists has killed more than 9,500 people in the last two years.

??9500??????

The Ukrainian president said that although the country is safer than it was a year ago, a full-scale invasion from Russia could not be ruled out.

??

Poroshenko said: 'Over the course of the next year, political forces could come to power as a result of elections in several European countries that may not be extremist, but are inclined to compromise with the Kremlin.

???????“??”

Europe still speaks with one voice, but there are also countries where the Russian accent is already too audible.'

“??”

The European Union is split over whether to continue putting sanctions on Russia that have taken an economic toll on both sides.

??

Ukrainian lawmakers have previously voiced fears that the rise of populist sentiment.

??

Tensions between Ukraine and Russia spiked in August after Russia accused Ukraine of planning attacks in Crimea.
