

《iPhone 7丑出天际？苹果市值一夜蒸发1022亿！》

导读:本周三，苹果公司举行了iPhone

7发布会，但是之后却发出公告说不会公布iPhone 7第一周的销售数据，外界猜测这可能是苹果公司心虚的表现，销售数据可能并不乐观，苹果公司股价也在一夜之间蒸发了1000多亿。

Nothing can dominate the tech world's conversation quite like a big Apple event. And sure enough, this week's announcement of the iPhone 7 has spawned several discussions: Shutterbugs liked the phone's new camera. Nintendo fans rejoiced at Super Mario's arrival on the iPhone. Music lovers huffed over Apple's insistence on killing the beloved headphone jack.

Then there's the constituency that's been giving Apple grief for the past year: its investors. Apple's stock has lost a fifth of its value since reaching \$132 a share in 2015 as stockholders became focused on one primary concern: Has the iPhone, which accounts for nearly two thirds of Apple's revenue, hit peak popularity?
