

《24节气之小暑》

June 6th of the lunar calendar is the day to worship Pangu, it is called the Slight Heat.

Chinese Solar Terms: Minor Heat

See, in China's southwestern Guizhou, the Buyi people prepared many great sacrifices, and also singing and dancing! There is also an activity which is to put all the temples scriptures under sunshine at the Baiyunguan, a Dao Temple in Beijing; it is a very lively event. While the sunshine is bright, people air their quilts. It's a kind of sterilization.

Woo, Luc can't control himself again, he wants to watch the bustling scene.
