????????????????????????????????????

????????????????????????????????????????????

Built in 1056 during the Liao Dynasty, the 67.31 meter pagoda is also called the Sakyamuni Pagoda of Fogong Temple, the oldest wooden multi-storied structure in the world.

???????1056???67.31????????????????????????????????

It is as famous as the Leaning Tower of Pisa in Italy and Eiffel Tower in Paris.

????????????????????

With 3,000 cubic meters of wood weighing 2,600 tons, the octagonal-shaped pagoda was built with no nail and has withstood earthquakes and survived wars.
