

《Chinese farmer finds tiny chicken egg》

A Chinese woman found a special chicken egg at her farm in Zhangzhou City, southeast China's Fujian province, on July 25. (Photo: People.cn) The tiny chicken egg is only 1.9 cm long, has a diameter of 1.8 cm through its widest part and weighs 4.0 grams. An average a chicken's egg is 5.7cm long, 4.4cm in diameter and weighs 57g.
