

导读:自动驾驶汽车的出现是否会改变人们的出行方式?

????????????????????

"?????????????????????????????????"

????????????????????????????????????????????????????????

"These trials are important for VicRoads (the Victorian roads authority) to identify how driverless vehicles are going to interact with the infrastructure in our local community," Donnellan said.

"????VicRoads?????????????????????????????????????????"

Bosch hopes that level four driverless cars, cars with self-driving technology that still have a steering wheel so a human can take over if needed, using Bosch's technology will be on the market around 2025.

[illegible]

"It looks like a Tesla but the automated driving functions are ours."
