

《 “ 智能报刊亭 ” 现身杭州街头，可自助买书报饮料》

导读:不用一个工作人员，就能自动售卖报纸、杂志、饮料、零食；Wi-Fi热点、手机充电站、火车票自动售货机和公共汽车查询区域等服务将陆续开放。

As e-payments and intelligent technology have continued to facilitate economic development, the first automatic newsstand has been put into use in Hangzhou, capital city of eastern Zhejiang province.

??

The newsstand is equipped with 16 boxes covered in glass, and each box has 100 sub-boxes containing newspapers and magazines. Customers can use a touch screen to select their preferred newspaper and payment method, and then collect their purchases from the automatically opening sub-boxes.

????16????????????????100??

In addition to self-service purchasing of newspapers and periodicals, the newsstand also offers cold and hot beverages, packaged foods, informational brochures and other commodities.

??

Services including a Wi-Fi hotspot, a mobile phone charging station, train ticket vending and a bus query area will be added in the future.
