

《变废为宝出新招：垃圾也能成为学习用具》

导读:如果垃圾可以交换学习用品或者体育用品，你会不会投身这份公益事业呢？青海玉树藏族自治州杂多县的中小学，给我们开了个好头。

Two waste bottles for a pencil, 500 grams of unrecyclable waste for a notebook, and 15 kilograms of waste paper for a soccer ball or basketball?the equations are cemented in the mind of Nyima Dbangmo and all other students at the Second Middle School of Zadoi county,in Yushu Tibetan autonomous prefecture of Qinghai province.

????????????????Nyima Dbangmo????????????????????????????????500????????????????15????????????????

After every weekend, Nyima Dbangmo holds a plastic bag of trash, such as used water bottles, as she returns to school from home.

????Nyima Dbangmo????????????????????????????????

The garbage collected by the 14-year-old basically paid for her stationery items last semester, from pencils to notebooks, she says.

14????????????????????????????????

"It is habitual for us to pick up the garbage from the ground."

“?????????????”

Since last March, a program called "Garbage for Stationery" has improved the campus environment and enhanced students' awareness of the environment in six middle schools in Zadoi county along with ecology and environment protection classes.

????????????????“?????”????????????????????????????????

According to Nyigya, head of the county's education department, poverty alleviation through education requires not only knowledge, but also cultivating a sense of responsibility among future generations to protect the fragile environment the local people rely on.

????????Nyigya??

Zadoi county, whose economy depends on raising livestock, has an area of 30,000 square kilometers and an average altitude of 4,200 meters. It has a total population of 66,000, with more than 10,000 students registered in primary and middle schools.

????????????????????30000????????????4200????66000????????10000??

Students have embraced the program since it started, according to Karma Chonyi, a teacher who is in charge of the program from the Second Middle School.

????????Karma Chonyi????????????????

Every noon, Karma Chonyi shows up at a special office for the program to count the students' gains and reward them accordingly.

????Karma Chonyi????????????“???”????????

The collected waste is disposed of by categories, with the help of local dump-managing staffers.

????????????????????

There are about 40 items available for exchange at the office. The school, with donations from society, invested about 20,000 yuan (\$3,000) in the program.
