

《中国留学生低龄化，您怎么看？》

导读:中国教育在线 22 日发布《2016 年中国出国留学发展趋势报告》。报告指出，我国留学生的年龄结构正在发生快速变化，以中学生为主体的低龄留学生发展迅速。

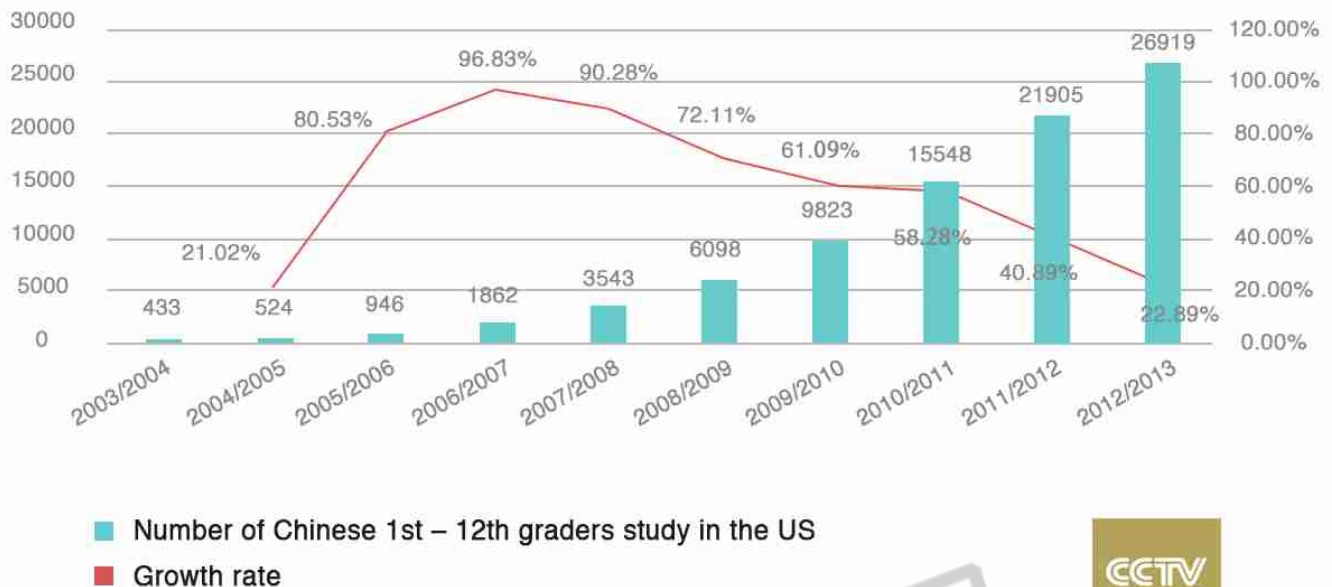

The age of Chinese students who study abroad has lowered rapidly, with the number of Chinese students seeking college degrees exceeding the number of students looking for graduate schools in the US for the first time.

Moreover, the report says that more students are looking for education in high schools, and even elementary schools. Students who studied in the US from 7th to 12th grade in the 2012-13 academic year rose to 26,919 from 433 in 2003-04. Numbers for the UK and New Zealand was 5,683 and 5,602 in the 2014-15 academic year, for 1st to 12th graders, and 5,370 for Australia for 7th to 12th graders.

2012-2013 26,919 2014-2015 26,919
 2012-2013 26,919 2014-2015 26,919

With the increasing trend of Chinese students going abroad, many have returned and are not satisfied about the salary they are earning. The report says that 80 percent of students coming home have returned from the over four million students that have studied abroad from 1978 to 2015.

1978-2015 4,000,000

about 50 percent of returned students with Master's degrees, and 67 percent with PH.D's, were receiving a monthly salary below 5,000 yuan in 2014, which increased from 2013's 50 percent and 67 percent.

2014 50% 67% 5000 2013
