

《中国为世界经济贡献30%力量》

导读:作为全球第二大经济体，中国一直对世界经济具有举足轻重的影响。据专家推断，中国对世界经济的贡献将常年保持在25%-30%。

The transition of China's economy will become an important driver of world economic growth, according to Chi Fulin, director of the China Institute for Reform and Development.

??

Addressing the China reform forum that opened on Saturday, Chi said the contribution of China to the world economy will remain around 30 percent for the next five years.

??30????

He predicted that in the next few years, the global economy will grow slowly while seeking a new balance, bringing impact on the transition of China's economy.

??

On the other hand, as the second largest economy, China's economic transition and growth is increasingly influencing the world economy. "It is estimated that the contribution of China's economic growth to the world
