Photographs have emerged of the dramatic moment a snake turned the tables on a fox trying to make it dinner.

????????????????????????????????

Robert Cregan and his son were travelling along a road on the NSW north coast on Monday when they spotted the fox being strangled to death by a snake.

???????.??

The hungry four-legged animal tried to prey on the two-metre carpet python, but the reptile gives the predator a nasty surprise.

??

As this incredible series of photos show, the pair of animals were at each other's throats as the fox struggled to breathe for air after pursuing the snake.

??

'The fox had bitten the snake on the head, looking for a meal I guess,' Mr Cregan told The Daily Telegraph.

????????????????"????????????????????"

And things dramatically took a turn for the worse when the pursuing fox found itself being the meal instead as the snake clamped tightly around its jaws.
