

《新鲜出炉：上新一代上海单身人士婚恋观》

导读：“男大当婚，女大当嫁”，而在工作竞争激烈、生活节奏快的现代社会，单身越来越成为国内各大城市中普遍存在的社会现象。

The Shanghai Matchmaking Association has recently released a survey report, outlining the trends and struggles that dominate the city's single individuals' attitudes in dating and marriage.

????????????????????????????????

based on research of some 2,000 singles aged between 10 and 40 years old in Shanghai, the survey results highlight only 3 percent of the interviewees have expressed the willingness to accept a partner from the Northern provinces.

?????2000????10-40????????????????3%????????????????

Over 77 percent of single Shanghai interviewees want to marry local people, while 19 percent hope their partner could be from Hong Kong, Macau and Taiwan, or even from overseas, data shows.
