

《“我其实是会游泳的！”落水大熊猫经成功救援后重返大自然》

导读:近日，四川卧龙森林公园的一只大熊猫在试图越过水电站的时候不幸落入水中，经民警和工作人员援救，大熊猫得以重返大自然。

Forest police and workers at the China Giant Panda Protection and Research Center successfully rescued a panda who fell into the water at a hydro-power station in Gengda Township, Sichuan province on Nov. 1. The panda was released back into nature at around 9 p.m.

The panda fell into the water after the first rescue attempt by police and workers failed. As it began to get dark and the panda became anxious, police decided to shoot the animal with a tranquilizer. Around 7 p.m., one hour after the panda was tranquilized, police pulled the panda ashore. An examination revealed that the 4-year-old female was in good health. She was released back into nature after regaining consciousness.
