

《加州要闹独立了？川普上位的冲击力果然不小》

As Donald Trump ' s shock election victory reverberated around Silicon Valley late on Tuesday night, some high-profile technologists were already calling for California to secede from the United States.

??

The broader west coast is a stronghold for the Democrats, and significantly more politically progressive and racially diverse than large swathes of central US.

??

California is also the biggest economy in the US and the sixth largest in the world.

????????????????????6??

The campaign for independence – variously dubbed Calexit, Califrexit and Caleavefornia – has been regarded as a fringe movement.
