

《中国和以色列合作开发医疗机器人》

导读:在第二届中以机器人创新大会上，中以公司共同致力于引入更多具有前瞻性、创新性的以色列机器人技术和项目。

Chinese and Israeli research institutes and companies attending an exposition on Tuesday in Guangzhou are keen to cooperate on developing medical robots.

??

Nine Israeli companies at the event brought with them robotics currently used in spinal surgery, 3D imaging, and medicinal dosage handling devices.

????????????????????????????3D????????????????

Israeli Robotics Association Chairperson Zvi Shiller said Israel has developed robots to help the disabled go to the toilet, shower and climb escalators. Israeli firms are actively looking for partners to produce and sell their robots in the Chinese market.

????????Zvi Shiller??

Chinese tech firm Gosuncn Technology Group is investing heavily in patrol robots. A senior company official said
