A fearless dog chased after a large tiger shark in the Torres Strait in a shocking moment caught on video.

The video shows the dog leaping into the water at the sight of the shark at a Mabuiag Island beach.

The dog owner can be heard yelling at the pet, which appears to be named Yassie, as the dog swims dangerously close to the shark.

????????????????????"Yassie"????????????

A Mabuiag Island resident told the Cairns Post that many dogs on the island were trained to catch sharks.

????????????????????????????????????

'The owners go fishing and the dogs go with them,' the unnamed man said.

“????????????????”??????????

But the man doubted that anyone would have trained their dog to go after such a large shark.

????????????????????????????????

'It's an island life here,' the man told the Cairns Post.

'It's common to see sharks, not every day, but now and again they come up.
