

《CNN致2016年的一封信》

导读:在2016年的最后一天，CNN给2016年写了一封信，内容风趣深刻。一起来阅读下吧！

Dear 2016,

???2016?

Pack your bags; we're done. It was one disappointment after another with you.

???????,????????????????????

Just how bad were you? Let us count the ways.

????????????????

You just took and took and took, 2016

???????????2016

You took Prince, Bowie, Cohen.

????“?”???????

You took Pat Conroy and Harper Lee. Muhammed Ali and Arnold Palmer.

??????.??????.??????.??????.????

You took Gene Wilder, Alan Rickman and Carrie Fisher.

??????.??????.??????.???

They're all gone, too, because of you.

????????????????

2016, you unleashed hell

2016???????????

The numbers are just mind-boggling:

???????????????

More than 80 in the Nice truck attack.

80???????????????

44 dead in the Istanbul airport blast.

44???????????????

32 in the Brussels bombings.

32???????????????

49 in Orlando, in the deadliest mass shooting in US history.

49????????????????????

Cops shot and killed black men in Louisiana and Minnesota. A sniper killed five Dallas officers, the deadliest single incident fatality for US law enforcement since 9/11.

????????????????????5????????9-11????????????????

And the bloody, brutal Syrian civil war just dragged on. Those who were able to flee risked death in the Mediterranean's unforgiving waters, where more people died this year than ever.

??

You dished out a lot of misery

??????????

It's impossible to candy-coat it, 2016. When it came to misery, you went full-throttle.

??????“?”????2016????????????????

You forced thousands from their homes with historic flooding in Europe, in North Korea and in Louisiana.

????????????????????????????????????

You created Haiti's worst humanitarian crisis this decade with Hurricane Matthew. And Ecuador still hasn't recovered from the quake in April that killed more than 600.

????????????????????????????4????600????????

You brought trouble to the skies, too.

??????????

In May, everyone aboard an EgyptAir plane died when it crashed into the Mediterranean. We still don't know why.

5????????????????????

In November, a jet carrying a Brazilian soccer team crashed in Colombia, killing 71.

11????????????????????????????71????

As if all that isn't enough, you broke the record for the hottest months ever.

????????????????????????????

You tore us apart, 2016

????????2016

We're glad the elections are over, but the wounds you inflicted will take a long time to heal.

????????????????????????????????

Republican Donald Trump won the Electoral College and the White House. Democrat Hillary Clinton won the popular vote. And America's torn in half and uncertain of the path ahead. Britain's no better with Brexit.

?????.??

But hey 2016, we'll give you this

????2016????????

You get props for getting some things right, like the brightest supermoon since 1948.

????????????????1948????????

Oh, and during your watch, the US unemployment rate sank to 4.6%, the lowest in 10 years.

????????????????4.6%???10????

So yeah, you were better than, say, the year the bubonic plague took hold in Europe, eventually killing a third of the population. But that was 1348.

????????????????????????????1348?

The best part of you, 2016, is December 31 — the day you slink out of town.

2016????????12?31?——????????

Let's hope 2017 is as good as you were bad.

????2017????????

Sincerely,

???

The world.

??
