

《肥猪赛大象！郑州现1500斤猪王能当“牛”骑》

导读:据环球网报道，近日河南郑州举行了一场猪王争霸赛。其中一头1500斤重的母猪“力压群雄”，卫冕“猪王”。

A 118-stone pig was crowned the 'King of the Pigs' this week at a weight contest in central China.

????????????????????118????1500?——????????“??”?

The animal is apparently so giant that it can carry an adult on the back, according to Huanqiu.com, a publication affiliated to People's Daily Online.

????????????????????????????????

Measuring 7ft long and 3ft 5in tall, the pig snapped the championship after beating dozens of pigs on January 8 in Henan province.

The contest, organised by a pig farming association in Huanghetan district of Zhengzhou city, attracted several local farms to send their hogs to participate.

??

All of the participants weigh over 80 stone and have been raised for over two years, according to the Huanqiu report.

????????????????????80????????????????

The winner, weighing three-quarters of a tonne, is actually a female pig.

????????????????????????????

Her keeper, surnamed Zhang, said he had reared the pig for three years.

????????????????????

The animal eats a lot and has grown to the size of a cow, according to Zhang.

????????????????????????????

Huanqiu's report used the title 'the 118-stone King of Pigs is so big you can ride it like a cow' to describe the animal's sheer size.

A video posted to Youtube shows the newly crowned 'King of Pigs' carrying a woman on her back

?????Youtube????????????“?”????????

Two Chinese characters 'zhu' and 'wang', which mean 'pig' and 'king' respectively, were written on the pig's body.

?????????“?”“?”????????“pig”“king”?

The woman said: 'I am not afraid of her. She is very gentle-tempered.' The pig was nosing around for food next to the woman as she spoke.

?????“?????????”????????????????

An average adult pig weighs around 22 stone, according to a pig farmer, which is less than one-fifth of the weight of the winning pig.

????????????22????????

The heaviest pig on record in China came from Liaoning Province in eastern China.

????????????????????

The hog weighed 141 stone and measured 8ft 2in long and 3ft 7in tall. He died in 2004 aged four.
