Trump investigates

????????

President-elect Trump announced, on Twitter on Friday, that his team will also produce a "report on hacking" within 90 days.

It follows the released of an unproven dossier alleging that Russian security officials have compromising material

on Mr Trump, which could make him vulnerable to blackmail.

The US president-elect said the claims were "fake news" and "phoney stuff".

The US released an unclassified intelligence report earlier this month, claiming that Russian President Vladimir Putin had ordered the hacking of Democratic Party emails to damage Mr Trump's Democrat rival, Hillary Clinton, and influence the election.

??

It also said Russia used state-funded propaganda and paid social media users, or "trolls", to launch online attacks.

??

In December, US President Barack Obama expelled 35 Russian diplomats from the country in response to the hacking allegations.

Russia says allegations that it ran a hacking campaign to influence the US presidential elections are "reminiscent of a witch-hunt".
