

《英国情报机构瞄准中学女生：培养女性网络间谍》

导读:一直以来,英国间谍的形象多为男性。不过从去年开始,英国情报机构宣布,他们如今招聘时更倾向于那些具有高情商的人才,而不局限于性别。

Teenage girls who spend a lot of time online and on social media could become the UK's spies of the future, Britain's intelligence agency hopes.

??

GCHQ is launching a competition with the aim of encouraging more girls to think about a career in cyber security.

???????GCHQ????????????????????????????????

Girls aged 13 to 15 will compete in tests that will also cover logic and coding, networking and cryptography.

?????????13?15????????????????????????????

Women currently only make up 10% of the global cyber workforce, the agency says.

????????????????????????????????????10%?

The competition is part of a five-year National Cyber Security Strategy announced in November 2016, and will be overseen by the new National Cyber Security Centre (NCSC).

Working in teams of four, the girls will complete online tasks remotely on their school computers, with each stage being harder than the previous one.

??

The 10 groups with the highest scores will then be invited to the CyberFirst competition final in London to investigate a complex cyber threat.

????????10????????????CyberFirst????????????????????

CyberFirst's winning team will be awarded 1,000 pounds worth of computer equipment for their school, as well as individual prizes.

First steps

????

The NCSC was set up to be the main body for cyber security at a national level.

????????????????????

It manages national cyber security incidents, carries out real-time threat analysis and provides advice.

????????????????????

Government Communications Headquarters director Robert Hannigan said: "I work alongside some truly brilliant women who help protect the UK from all manner of online threats.

????????????·?????"????????????????????????????????????"

"The CyberFirst competition allows teams of young women a glimpse of this exciting world and provides a great opportunity to use new skills."
