导读:美国总统特朗普16日举行了上任以来首次单人记者会，从他走进白宫东厅开始，就火力全开批判美国媒体，并为自己上任一个月的工作表现作辩护。

We're calling it: Donald Trump gave the most insane press conference of his presidency, possibly in political history, on February 16, 2017.

The president had already set the bar high but he outdid even himself when he blustered for more than an hour and insisted his chaotic administration was actually a “fine-tuned machine”.

He goaded journalists, called Obamacare “a disaster”, said the 9th Circuit Court that upheld the stay on his Muslim ban was “in turmoil”, and argued with a CNN journalist about whether it was “fake news”.

He also contended he would sign a new executive order on security, while still fighting the courts that halted the Muslim ban.
