

《iPhone 8最新情报流出：屏幕超大，价格超贵！》

导读:iPhone 7还没捂热，iPhone 8又来了，之前曾有报道说苹果公司今年将发售3部手机，其中最引人注目的就是iPhone 8，而据称iPhone 8将配备5.8英寸超大屏幕，价格也将超过1000美元。

A new report has revealed that Apple plans to launch three handsets this year - two will be updates of the iPhone 7 family and the third is the 10th-anniversary handset.

Previous rumors have already identified an increase in price.

????????????????

Earlier this month it was revealed by Fast Company that the so-called iPhone 8 will costs more than \$1,000 (800 pounds) – making it the most expensive handset the firm has ever produced.

However, it is said that users will receive more cutting-edge technology and a sleeker design – a handset that is sure to impress.

????????????????——????????????

In addition to costing users more, it is believed that Apple may not release the iPhone 8 until October.

????????????????10????iPhone 8?

It is believed that the iPhone will not go into mass production until September, which has suggested that iOS users will not get their hands on one until October.
