

《你一直被人监视：维基解密爆料CIA监听安卓和iPhone！》

导读:近日维基解密又搞了个大新闻，爆料称美国CIA一直对安卓和iPhone实施监听，谷歌、苹果和三星等大公司的产品都在名单之列。

Wikileaks published thousands of documents said to detail the US spy agency's hacking tools on Tuesday.

????????????????CIA??????????

They included allegations the CIA had developed ways to listen in on smartphone and smart TV microphones.

??????CIA????????????????????

Apple's statement was the most detailed, saying it had already addressed some of the vulnerabilities.

????????????????????????????

"The technology built into today's iPhone represents the best data security available to consumers, and we're constantly working to keep it that way," it said.

????????“??iPhone????????????????????????????????”

"Our products and software are designed to quickly get security updates into the hands of our customers, with nearly 80% of users running the latest version of our operating system.

“????????????????????80%?????????????????”

"While our initial analysis indicates that many of the issues leaked today were already patched in the latest iOS, we will continue work to rapidly address any identified vulnerabilities.

“????????????????????iOS?????????????????????”

"We always urge customers to download the latest iOS to make sure they have the most recent security update."

“????????????????iOS?????????????????”

Samsung - whose F8000 series of televisions was reportedly compromised via a USB connection-based hack co-developed with the UK's MI5 agency - was briefer.

????????????——????F8000????????????5????USB?????????

"Protecting consumers' privacy and the security of our devices is a top priority at Samsung," it said.

????????“?????????????????????”

"We are aware of the report in question and are urgently looking into the matter."

“?????????????????????”

The leaks also claimed that the CIA had created malware to target PCs running Microsoft's Windows operating system.

????????????CIA????????????Windows?????????

"We are aware of the report and are looking into it," a spokesman from Microsoft said.

????????“?????????????????????”

The documents said that the CIA had also created "attack and control systems" that could hijack computers powered by Linux-based software.
