

《打脸---特朗普女儿的品牌来自中国制造！》

导读:美国总统特朗普就职演说时信誓旦旦宣布“只用美国货，只雇美国人”如今被法新社的调查报道狠狠打脸。

In his inauguration speech in January, US President Donald Trump made a seemingly straightforward pledge: "We will follow two simple rules: buy American and hire American."

His daughter is the exception.

Even as he spoke, at least eight shipments of Ms Ivanka Trump-branded shoes, bags and clothes - more than 53.5 tonnes - were steaming towards US ports from China, according to US Customs bills of lading examined by AFP.

Mr Trump uses his presidential pulpit to censure manufacturers - both domestic and foreign - for using overseas labour to make goods for American consumers, but the Ivanka-branded orders have kept rolling in.

More than two tonnes of ladies' polyester woven blouses, 1,600 cowhide leather wallets and 23 tonnes of made-in-China footwear were among at least 82 such shipments that passed US Customs - almost one per business day - from Mr Trump's Nov 8 election win through Feb 26, records showed.

The goods were made in China by three US companies holding licences to manufacture products for Ms Trump's fashion line: garment maker G-III, Mondani Handbags and Marc Fisher Footwear.

Marc Fisher told AFP it had no comment, while the others did not respond to requests.

The first daughter's business has come under scrutiny since major US department store chain Nordstrom announced last month that it would stop carrying her products, citing poor sales.
