

《这就很尴尬了：特朗普新版“禁穆令”再遭法官拦截！》

导读:据BBC报道，自旧版“禁穆令”遭到法官冻结后，特朗普总统近日再发“禁穆令”，但是这一回又遭到了法官拦截。此次，特朗普该如何接招呢？

Federal judges in Hawaii and Maryland have blocked US President Donald Trump's new travel ban, which was due to begin after midnight on Thursday.

??

The order would have placed a 90-day ban on people from six mainly Muslim nations and a 120-day ban on refugees.

????????????????????90????????????120??

Both judges questioned the legality of the ban, which critics say is discriminatory.

????????????????????????????????????

President Trump insists the move is to stop terrorists from entering the United States.

????????????????????

He complained of "unprecedented judicial overreach".

???????“????????”?

An earlier version of the order, issued in late January, sparked confusion and protests, and was blocked by a judge in Seattle.

????????????????????

In Hawaii, District Judge Derrick Watson cited "questionable evidence" in the government's argument that the ban was a matter of national security.

????????????·????????????????“????”?

US District Judge Theodore Chuang, sitting in Maryland, also ruled it was meant to be a ban on Muslims, and therefore violated the First Amendment.

????????????·????????????????

Hawaii state had argued that the ban would harm tourism and the ability to recruit foreign students and workers, while in Maryland the plaintiffs argued it discriminated against Muslims and illegally reduced to number of refugees being accepted for resettlement in the US.

????????????????????

What happens next?

????????

Mr Trump said he will take the case "as far as it needs to go", including to the US Supreme Court.

?????“????”????????

California, Massachusetts, New York, Oregon and Washington state are all taking part in legal actions against the revised ban.

??

The technique uses a modified version of IVF to combine the DNA of the two parents with the healthy mitochondria of a donor woman.

????????????????????IVF????????DNA????????????????????

It results in babies with 0.1% of their DNA from the second woman and is a permanent change that would be passed down through the generations.

????????????0.1%DNA????????????????????
