Michael Fassbender and Guy Pearce star alongside Katherine Waterston, Danny McBride, James Franco and Noomi Rapace in the sixth episode of the sci-fi horror series – one that looks to be both a sequel to 2012's Prometheus and a kind of prequel to the 1979 original. Taking place 10 years after the events of Prometheus, it follows the crew of the Covenant on a mission to colonise a planet when they pick up a distress call.

Japanese director Koji Fukada made this explosive family drama as a companion piece to his award-winning 2010 black comedy *Hospitalite* – and it's drawn rave reviews from critics. When a stranger (Tadanobu Asano) appears at the door of a suburban family home and explains he has just been released from prison after serving 11 years for murder, he is welcomed in by Toshio (Kanji Furutachi), the father, who explains to his wife (Mariko Tsutsui) that the man is an old friend.
