导读:富豪榜中有平常人，也有新面孔。这些名人你都知道吗？

It's that time of year again - Forbes has released its list of the top 100 highest-paid entertainers and Sean "Diddy" Combs is top of the tree.

?????????—???????100????????????????????·??????

His earnings of \$130m (102m pounds) pushed him up from last year's 22nd spot.

?????1.3??? (1.02???)??????22???????

His success is down to his recent US tour, a marketing deal with a vodka company and selling one third of his Sean John clothing line.

??

Beyonce and JK Rowling took second and third spot, but women comprise just 16% of the world's top-earning celebrities.

????JK????????????????????????????16%?

Newcomers include Kylie Jenner, at number 59, who is the youngest list member at the age of 19. Her earnings come from her family's reality TV show - Keeping Up with the Kardashians - her namesake cosmetics company and clothing line, plus various endorsements.
