

《祝贺！这两位院士获2017年国家最高科学技术奖！习主席颁奖！》

1月8日，2017年国家最高科学技术奖在人民大会堂举行。中国工程院两名院士得奖。国家主席习近平颁奖。

Explosive expert Wang Zeshan and virologist Hou Yunde received the 2017 State Preminent Science and Technology Award—the nation's highest scientific award—in Beijing on Monday.

??2017????????????????——????????????

President Xi Jinping presented award certificates to them at an annual ceremony held in Beijing to honor distinguished scientists and research achievements.

??

Wang, 82, is an academican at the Chinese Academy of Engineering (CAE). He is known in the academic field as the "King of Explosives" for his research into explosives that have great civilian and military applications. His inventions have improved the launch range of Chinese missiles and cannons by more than 20 percent.

82??"????"????????????????????????????20%???

Hou, 88, also an academican at the CAE, is the founder of China's modern virology study. He laid the foundation
