

《被誉为“世界建筑奇迹”的上海深坑酒店，建了11年，终于开业！》

随着世界上第一个以“进口”为主题的国家级展会-首届中国国际进口博览会在上海举行，从立项、规划、设计、施工至今，已有10余年的上海深坑酒店的开业问题在近期也有了眉目。

The world's first underground hotel will open to the public on November 20 in Shanghai, according to Xinhua.

?????????11?20????????????????????

Located 30 kilometers from the center of the east China metropolis Shanghai, the hotel is built near the Sheshan Mountain National Forest Park and Chenshan Mountain Botanic Gardens. The hotel has been built in a formerly abandoned quarry that plunges 80 meters below the ground level. Of the 18 floors in the hotel, 16 of these are underground, while two floors are completely underwater inside the hotel's 10-meter deep aquarium.

?????????????30???80?????18?????????16????????????????????????????????
?????????

As the world's first five-star hotel built in a waste crater, the hotel will not only create the world record for the lowest five-star hotel built globally, but also its concept of "reverse sky" development will become a revolutionary architectural design.
