

《上海启动5G试用 5G将给各行业带来便利》

A 5G network in Shanghai's Hongkou District, backed by Chinese telecom giant China Mobile, started trial runs on Saturday.

在中国电信巨头中国移动的支持下，上海虹口区的5G网络于周六开始试运行。

Wu Qing, Shanghai's vice mayor, made the network's first video call using a Huawei Mate X, a foldable 5G smartphone, at the launch ceremony.

????????????????Mate X(???5G????)????5G??????

A total of 228 5G base stations have been deployed in Hongkou, making it the first district in Shanghai fully covered by a 5G network and a gigabit broadband network.

??????228?5G????????????5G????????????

Zhang Jianming, deputy director of the Shanghai Municipal Commission of Economy and Informatization, said the city aims to build over 10,000 5G base stations by the end of the year, and the number is expected to exceed 30,000 by 2021.

????????????????????????????1???5G????2021??????30,000??

Zhang added that the 5G network would provide solutions to industrial manufacturing, internet-connected cars, healthcare and city management.

??????5G????????????????????????????????
