

????????????4G? ??????????????

2.????????“??”?

????????“??”????????????????????????????????“???”(Chinese)?

Because the Chinese company is "Chinese", many governments don't trust how secure it is gonna be.

????????????????????????????????????

????????????????????????????????

Huawei may be best known to most people for making phones. But it's also a leading player in building the infrastructure for all-out communications. Critics fear that allowing it to build 5G could enable the Chinese state to spy on or even switch off the flow of data we will all depend on.

??5G????????????????????????????????

3.????“????”??

????????????“?????????????????”

Imagine that, if Huawei becomes the leading provider of 5G in the world, then China can spy on everyone, which is terrible, 'cause that's what America wants to do.

简答网

????????????????????????????????

So, this is a race many people are already saying America has lost.

????????????????????????????

“??”????????????????“??”?

Luckily, and I can't believe I'm saying this, America is lucky that you have a maniac on your team who's willing to play dirty.

??

President Trump is signing an executive order banning US companies from using telecom equipment deemed to be a national security threat and that strikes a shot at China and its tech giant Huawei.
