????????????20????????????(Mario Cavolo)? ?????11????H1N1????????????????????

But nobody said any of that to the CDC back when this global pandemic in 2009 was happening. And the

The US H1N1 swine flu numbers were vastly underestimated and updated three years later, because dear friends, that is the nature of such viral outbreaks which don't care which country they started in. There is never enough manpower, there are never enough test kits, there is never enough medicine or medical supplies.

????????????

[illegible]

????????????

???

I am on the ground here in China watching with my own eyes and it is quite incredible by any measure.

????????????????????????????????????

It's impossible not to marvel at China's broad and aggressive domestic response directed by the provincial level governments to restrict movement, restrict transportation, and restrict business for a period of time combined with the voluntary dutiful cooperation of its 1.3 billion citizens who are in the majority quietly staying at home these weeks to let the virus pass.

??13??

This model response is already being hailed by the international community as a remarkable unprecedented response setting a new standard in understanding what is possible for future outbreaks in whatever country they may occur.

我真的气哭了，德国出现第一起因为冠状病毒留学生被殴打的事件了。

1月31日下午，在柏林中心区，两名女性辱骂并袭击了一名23岁的中国女生，称呼她为中国病毒、向她吐口水、撕扯她的头发将她撕倒在地上，随后殴打并踢了她腿部、躯干和头部。警方将这一罪行归定性“种族歧视袭击”。这名中国女性头部受伤、眼镜被损坏、已被送往医院接受治疗。袭击者在逃。

希望大家在接下来注意保护好自己的人身安全，女生出门不要落单，当遇到正面的歧视性辱骂和挑衅请第一时间报警！

吃野味的那些人知不知道，因为他们的无知，多少种族歧视者有了正大光明行凶的理由；瞒报疫情的那些人知不知道，因为他们的无能，远在万里外的同胞都开始遭受殴打和辱骂。 [收起全文](#)

??????????????

There's a strange senseless bullying extremism and activism in today's society and you should do your best to avoid it and not be a part of it.

??

It is fomented by a small group of extremist activists while definitely not supported by your average mainstream person who is simply exhausted by their outrage-inducing antics.

??

????????????????“????”??????H1N1??“????”?

It's not called the China virus and neither was H1N1 called the America virus.

Like I said, something's not right with the way humanity is responding to what's happening here.

????????????????????

It needs to stop. This vicious, political, xenophobic racist attacks and smearing of all things on China needs to stop. It's really not helping anyone in the political corridors of Washington nor is it doing anything to help the man on the street who is just concerned with taking care of his family.

??

??

The xenophobia needs to stop now. Whether in a couple of weeks or months later, this nasty Coronavirus will begin declining and the joy of Spring will arrive.

??

Between now and then if you don't have anything good, anything supportive to say about China or Chinese people, how about you just keep your mouth shut.
