????????????????Party??

According to one fresher at the University of Manchester, the “Covid Positive” party in the university's Fallowfield campus halls of residence was broken up by security on Saturday.

??“????”????????????

It is just one of the increasing instances of students' risky behaviour during lockdown restrictions.

??

????????????????????????????????

“There was a flat party a few days ago which had a policy that you could only get in if you were positive. It was like their health-and-safety measure,” the 18-year-old physics student said.

“??”??18????????????

Had security not arrived it could have been a big party.

At Northumbria University's Trinity Square campus, parties are still taking place despite many students isolating, said one 19-year-old.

????????????19????????????????????

"There are still messages in the group chat asking where the next party is," he said.

If college students are taking the pandemic seriously, you wouldn't know it by the officer's encounter with the Miami University student as captured in body camera footage that went viral after police released it.

????????????????????????????????

At least 10 people were shooed from the student's off-campus house, which already was home to eight. Gatherings are supposed to be limited to 10 people, per an Ohio state ordinance issued in July.
