

《土木工程类英文专业词汇》

A

acceptable quality 合格质量

acceptance lot 验收批量

acier 钢材

admixture 外加剂

against slip coefficient between friction surface of high-strength bolted connection 高强度螺栓摩擦面抗滑移系数

aggregate 骨料

air content 含气量

air-dried timber 气干材

allowable ratio of height to sectional thickness of masonry wall or column 砌体墙、柱容许高厚比

allowable slenderness ratio of steel member 钢构件容许长细比

allowable slenderness ratio of timber compression member

受压木构件容许长细比

allowable stress range of fatigue 疲劳容许应力幅

allowable ultimate tensile strain of reinforcement 钢筋拉应变限值

allowable value of crack width 裂缝宽度容许值

allowable value of deflection of structural member 构件挠度容许值

allowable value of deflection of timber bending member

受弯木构件挠度容许值

allowable value of deformation of steel member 钢构件变形容许值

allowable value of deformation of structural member 构件变形容许值

allowable value of drift angle of earthquake resistant structure

抗震结构层间位移角限值

amplified coefficient of eccentricity 偏心距增大系数

anchorage 锚具

anchorage length of steel bar 钢筋锚固长度

approval analysis during construction stage 施工阶段验算

arch 拱

arch with tie rod 拉撑拱

arch-shaped roof truss 拱形屋架

area of shear plane 剪面面积

area of transformed section 换算截面面积

aseismic design 建筑抗震设计

assembled monolithic concrete structure 装配整体式混凝土结构

automatic weld

[??] [??] [??] ----- [??] >>

ing ????

auxiliary steel bar ????

B

backfilling plate ??

balanced depth of compression zone ???????

balanced eccentricity ??????

bar splice ????

bark pocket ??

batten plate ??

beam ??

bearing plane of notch ?????(67)

bearing plate ???(52)

bearing stiffener ?????(52)

bent-up steel bar ?????(35)

block ??(43)

block masonry ?????(44)

block masonry structure ??????(41)

blow hole ??(62)

board ??(65)

bolt ??(54)

bolted connection (???)????(59)

bolted joint (???)????(69)

bolted steel structure ??????(50)

bonded prestressed concrete structure ?????????(24)

bow ??(71)

brake member ?????(7)

breadth of wall between windows ?????(46)

brick masonry ???(44)

brick masonry column ???(42)

brick masonry structure ?????(41)

brick masonry wall ???(42)

broad-leaved wood ???(65)

building structural materials ?????(17)

building structural unit ??????

building structure ???(2)

built-up steel column ?????(51)

bundled tube structure ?????(3)

burn-through ??(62)

butt connection ??(59)

butt joint ??(70)

butt weld ???(60)

C

calculating area of compression member ??????(67)

calculating overturning point ?????(46)

calculation of load-carrying capacity of member ??????(10)

camber of structural member ?????(22)

cantilever beam ??(42)

cap of reinforced concrete column ?????(27)

carbonation of concrete ?????(30)

cast-in-situ concrete slab c

[??] [??] [??] [??]----- [??] >>

column structure ??????
cast-in—situ concrete structure ??????(25)
cavitation ??(39)
cavity wall ???(42)
cement ??(27)
cement content ????(38)
cement mortar ????(43)
characteristic *value* of live load on floor or roof ??????????(14)
characteristic *value* of windload ??????(16)
characteristic *value* of concrete compressive strength ??????????(30)
characteristic *value* of concrete tensile strength ??????????(30)
characteristic *value* of cubic concrete compressive strength ??????????(29)
characteristic *value* of earthquake action ?????????(16)
characteristic *value* of horizontal crane load ?????????(15)
characteristic *value* of masonry strength ?????????(44)
characteristic *value* of permanent action- ?????????(14)
characteristic *value* of snowload ??????(15)
characteristic *value* of strength of steel ?????????(55)
characteristic *value* of strength of steel bar ?????????(31)
characteristic *value* of uniformly distributed live load ?????????(14)
characteristic *value* of variable action ?????????(14)
characteristic *value* of vertical crane load ?????????(15)
characteristic *value* of material strength ?????????(18)
checking section of log structural member-? ?????????(67)
chimney ??(3)
circular double—layer suspended cable ??????(6)

[??] [??] [??] [??]----- [??] >>

circular single—layer suspended cable ??????(6)
circumferential weld ????(60)
classification for earthquake—resistance of buildings- ?????????(9)
clear height ??(21)
clincher ??(20)
coefficient of equivalent bending moment of eccentrically loaded steel member (beam-column) ?????????(58)
cold bend inspection of steelbar ????(39)
cold drawn bar ????(28)
cold drawn wire ????(29)
cold—formed thin—walled section steel ??????(53)
cold-formed thin-walled steel structure-? ?????????(50)
cold—rolled deformed bar ??????(28)
column bracing ????(7)
combination *value* of live load on floor or roof ?????????(15)
compaction ????(37)
compliance control ????(23)
composite brick masonry member ?????????(42)
composite floor system ????(8)
composite floor with profiled steel sheet ??????(8)

composite mortar ????(43)
composite roof truss ????(8)
compostle member ????(8)
compound stirrup ????(36)
compression member with large eccentricity· ???????(32)
compression member with small eccentricity· ???????(32)
compressive strength at an angle with slope of grain ??????(66)
compressive strength perpendicular to grain ??????(66)
concentration of plastic deformation ??????(9)
conceptual earthquake—resistant design ???????(9)
concrete ???(17)
concrete column ????(26)
concrete consistence ?????(37)
concrete flod

[??] [??] [??] [??]----- [??] >>

ed—plate structure ??????(26)
concrete foundation ?????(27)
concrete mix ratio ?????(38)
concrete wall ????(27)
concrete-filled steel tubular member ???????(8)
conifer ????(65)
coniferous wood ????(65)
connecting plate ???(52)
connection ??(21)
connections of steel structure ?????(59)
connections of timber structure ?????(68)
consistency of mortar ????(48)
constant cross—section column ????(7)
construction and examination concentrated load ?????????(15)
continuous weld ????(60)
core area of section ?????(33)
core tube supported structure ???????(3)
corrosion of steel bar ????(39)
coupled wall ???(12)
coupler ???(37)
coupling wall—beam ??(12)
coupling wall—column... ??(12)
coursing degree of mortar ?????(48)
cover plate ??(52)
covered electrode ??(54)
crack ??(70)
crack resistance ???(31)
crack width ????(31)
crane girder ???(?)
crane load ????(15)
creep of concrete ?????(30)
crook ??(71)
cross beam ???(6)
cup ??
curved support ????(51)

cylindrical brick arch ???(43)
D
decay ??(71)
decay prevention of timber structure ?????(70)
defect in timber ?????(70)
deformation analysis ?????(10)
degree of gravity vertical for structure or structural member. ???????(40)
degree of gravity vertical for wall surface ?????(49)
degree of plainness for structural member ?????(40)
degree of plainness for wall surface ?????(49)

[??] [??] [??] [??]----- [??] >>

)
depth of compression zone ?????(32)
depth of neutral axis ?????(32)
depth of notch ??(67)
design of building structures ?????(8)
design value of earthquake-resistant strength of materials ???????(1)
design value of load—carrying capacity of members. ???????(1)
designations of steel ????(53)
design value of material strength ???????(1)
destructive test ????(40)
detailing reinforcement ????(35)
detailing requirements ????(22)
diamonding ????(71)
diaphragm ???(52)
dimensional errors ????(39)
distribution factor of snow pressure ???????
dogspike ??(70)
double component concrete column ???(26)
dowelled joint ???(69)
down-stayed composite beam ?????(8)
ductile frame ????(2)
dynamic design ????(8)

E
earthquake-resistant design ????(9)
earthquake-resistant detailing requirements ?????(22)
effective area of fillet weld ???????(57)
effective depth of section ???????(33)
effective diameter of bolt or high-strength bolt. ??(?????)???(57)
effective height ????(21)
effective length ????(21)
effective length of fillet weld ???????(48)
effective length of nail ?????(56)
effective span ????(21)
effective supporting length at end of beam ???????(46)
effective thickness of fillet weld ???????(48)
elastic analysis scheme ????(46)
elastic foundation beam ?????(11)
elastic foundation plate ?????(12)
elastical

[??] [??] [??] [??]-----[??] >>

y supported continuous girder· ???????(u)
elasticity modulus of materials ???????(18)
elongation rate ???(15)
embeded parts ???(30)
enhanced coefficient of local bearing strength of materials· ?????????(14)
entrapped air ???(38)
equilibrium moisture content ?????(66)
equivalent slenderness ratio ?????(57)
equivalent uniformly distributed live load· ???????(14)
effective cross—section area of high-strength bolt· ?????????(58) ·?
effective cross—section area of bolt ?????????(57)
euler's critical load ?????(56)
euler's critical stress ?????(56)
excessive penetration ??(62)
F
fiber concrete ?????(28)
filler plate ???2)
fillet weld ???(61)
final setting time ????)
finger joint ??(69)
fired common brick ?????(43)
fish eye ??(62)
fish—belly beam ?????(7)
fissure ??(?)
flexible connection ?????(22)
flexural rigidity of section ?????(19)
flexural stiffness of member ?????(20)
floor plate ??(6)
floor system ??(6)
four sides(edges)supported plate ?????(12)
frame structure ???(2)
frame tube structure ?????(3)
frame tube structure ??—????(2)
frame with sidesway ?????(12)
frame without sidesway ?????(12)
frange plate ???(52)
friction coefficient of masonry ?????(44)
full degree of mortar at bed joint ?????(48)
function of acceptance ???(23)
G
gang nail plate joint ?????)
glue used&

[??] [??] [??] [??]-----[??] >>

nbsp;for structural timberg ?????
glued joint ????

glued laminated timber ?????(")
glued laminated timber structure ??????'61)
grider ??(?
grip ??
grith weld ????(6÷)
groove ??
gusset plate ???(52)
H
hanger ??
hanging steel bar ??
heartwood ??
heat tempering bar ?????(28)
height variation factor of wind pressure ????????(16)
heliral weld ??????
high—strength bolt ??????
high—strength bolt with large hexagon bea ??????????
high—strength bolted bearing type join ???????????
high—strength bolted connection ???????
high—strength bolted friction—type joint ??????????
high—strength holted steel slsteel structure ??????????
hinge support ????(51)
hinged connection ??(21)
hlngeless arch ???(12)
hollow brick ???(43)
hollow ratio of masonry unit ?????(46)
honeycomb ??(39)
hook ??(37)
hoop ??(36)
hot—rolled deformed bar ??????(28)
hot—rolled plain bar ??????(28)
hot-rolled section steel ????(53)
hunched beam ???(?)
I
impact toughness ????(18)
impermeability ???(38)
inclined section ???(33)
inclined stirrup ???(36)
incomplete penetration ???(61)
incomplete tusion ???(61)
incompletely filled groove ???(61)
indented wire ???(29)
influence coefficient for load—bearing capacity of compression member ???????????(46)
influence coefficient for spacial action ?????????(46)
initial control ???(22)
insect&nbs

[??] [??] [??] [??]----- [??] >>

p;prevention of timber structure ?????(??o)
inspection for properties of glue used in structural member ?????????(71)
inspection for properties of masnory units ???????(48)
inspection for properties of mortar ???????(48)

inspection for properties of steelbar ??????(39)
integral prefabricated prestressed concrete slab—column structure ??????????(25)
intermediate stiffener ??????(53)
intermittent weld ?????(60)
J
joint of reinforcement ?????(35)
K
key joint ???(69)
kinetic design ???(8)
knot ??(??)(70)
L
laced of battened compression member ?????(51)
lacing and batten elements ??(??)(51)
lacing bar ??(51)
lamellar tearing ?????(62)
lap connection ??(??)(59)
lapped length of steel bar ??????(36)
large pannel concrete structure ?????????(25)
large-form cocrete structure ??????(26)
lateral bending ?????(40)
lateral displacement stiffness of storey ??????(20)
lateral displacement stiffness of structure- ??????(20)
lateral force resistant wallstructure ?????????(12)
leg size of fillet weld ?????????(57)
length of shear plane ?????(67)
lift—slab structure ?????(25)
light weight aggregate concrete ??????(28)
limit of acceptance ?????(23)
limiting *value* for local dimension of masonry structure- ?????????(47)
limiting *value* for sectional dimension ??????(47)
limiting *value* for supporting length ??????(47)
I

[??] [??] [??] [??] - - - - - [??] >>

imiting *value* for total height of masonry structure- ?????????(47)
linear expansion coeffcient ?????(18)
lintel ??(7)
load bearing wall ???(7)
load-carrying capacity per bolt ?????????(56)
load—carrying capacity per high—strength holt ?????????(56)
load—carrying capacity per rivet ?????????(55)
log ??(65)
log timberstructure ?????(64)
long term rigidity of member ?????(32)
longitude horizontal bracing ?????(5)
longitudinal steel bar ?????(35)
longitudinal stiffener ?????(53)
longitudinal weld ?????(60)
losses of prestress ‘?????’(33)
lump material ??(42)
M

main axis ??(56)
main beam· ??(6)
major axis ??(56)
manual welding ?????(59)
manufacture control ?????(22)
map cracking ??(39)
masonry ??(17)
masonry lintel ???(43)
masonry member ?????(41)
masonry units ??(43)
masonry—concrete structure ?????(")
masonry—timber structure ?????(11)
mechanical properties of materials· ?????(17)
melt—thru ??(62)
method of sampling ?????(23)
minimum strength class of masonry ?????????(47)
minor axls· ??(56)
mix ratio of mortar ?????(48)
mixing water ???(27)
modified coefficient for allowable ratio of height to sectionalthickness of masonry wall ?????????(47)
modified coefficient of flexural strength for timber curved mem— ?????????(68)
modulus of elasticity of concrete ?????(30)
modulus

[??] [??] [??] [??] ----- [??] >>

ing ???
auxiliary steel bar ???
B
backfilling plate ??
balanced depth of compression zone ??????
balanced eccentricity ?????
bar splice ???
bark pocket ??
batten plate ??
beam ??
bearing plane of notch ?????(67)
bearing plate ???(52)
bearing stiffener ?????(52)
bent-up steel bar ?????(35)
block ??(43)
block masonry ?????(44)
block masonry structure ?????(41)
blow hole ??(62)
board ??(65)
bolt ??(54)
bolted connection (???)????(59)
bolted joint (???)????(69)
bolted steel structure ?????(50)
bonded prestressed concrete structure ?????????(24)
bow ??(71)
brake member ?????(7)

breadth of wall between windows ?????(46)
brick masonry ???(44)
brick masonry column ?????(42)
brick masonry structure ?????(41)
brick masonry wall ?????(42)
broad—leaved wood ?????(65)
building structural materials ?????(17)
building structural unit ??????
building structure ????(2)
built—up steel column ?????(51)
bundled tube structure ?????(3)
burn—through ??(62)
butt connection ??(59)
butt joint ??(70)
butt weld ?????(60)

C

calculating area of compression member ???????(67)
calculating overturning point ?????(46)
calculation of load-carrying capacity of member ???????(10)
camber of structural member ?????(22)
cantilever beam ??(42)
cap of reinforced concrete column ?????(27)
carbonation of concrete ?????(30)
cast-in—situ concrete slab c

[??] [??] [??] [??]-----[??] >>

of elasticity parellel to grain ?????(66)
moisture content ???(66)
moment modified factor ??????
monitor frame ???
mortar ??
multi—defence system of earthquake—resistant building· ???????
multi—tube supported suspended structure ??????

N

nailed joint ????
net height ??|
net span ???
net water?cementratio ????
non-destructive inspection of weld ??????
non-destructive test ??????
non-load—bearingwall ????
non—uniform cross—section beam ????
non—uniformly distributed strain coefficient of longitudinal tensile reinforcement ??????????????
normal concrete ??????
normal section ???
notch and tooth joint ???
number of sampling ????

O

oblique section ???
oblique—angle fillet weld ??????
one—way reinforced(or prestressed)concrete slab“ ???

open web roof truss ??????
ordinary concrete ??????(28)
ordinary steel bar ?????(29)
orthogonal fillet weld ?????(61)
outstanding width of flange ???????(57)
outstanding width of stiffener ???????(57)
over-all stability reduction coefficient of steel beam- ???????(58)
overlap ??(62)
overturning or slip resistance analysis ???????(10)
P
padding plate ??(52)
partial penetrated butt weld ???????(61)
partition ?????(7)
penetrated butt weld ??????(60)
percentage of reinforcement ???(34)
perforated brick ???(43)
pilastered wall ?????(42)
pit&m
