

《造成食物浪费的“宾馆父母”》

一项调查显示，英国很多父母在孩子成年或离家后，每天做饭时还是会做孩子那份儿，以免孩子突然回家时没有饭吃。这种行为被指是造成大量食物浪费的重要原因，而这些父母则被称为hotel parents，因为他们的孩子其实只是把家当旅馆而已。

Parents who continue to cook for children who have grown up or left home have been blamed for fuelling Britain's food waste crisis.

??

Dubbed 'hotel parents', mothers and fathers, whose children treat their home 'like a hotel' and seldom eat at home, routinely cook dinner for them only for it to end up in the bin.

????????“????”????????????????????“??”??

Every year families in the UK throw away 7.2million tons of food, including spending £12billion on food which could have been eaten but ends up in the bin. Households are responsible for half of all the food waste every year, according to official figures.(Source: Daily Mail)
