Platforms are very necessary, but a relaxing and harmonious environment is more necessary. In all of the meetings and activities of CPPCC, we will always adhere to the principle of “Three don’ts”: don’t use a big stick, don’t label people and don’t pick on others’ faults. We will advocate heated yet non-confrontational debates, communicate sincerely not perfunctorily, encourage penetrating but not extreme criticism, and strive to create a democratic environment in which people can air their views freely.
