Since the implementation of the "double reduction" policy, we students have had more free time to participate in extracurricular activities in the fields of entertainment, sports, and the arts. These activities have added vitality and vibrancy to our lives. I have participated in a variety of activities, but two particular ones stand out. I have joined a drama club where I have acted in several plays. This has helped me develop my confidence and public speaking skills. I have also taken up painting, which has allowed me to express my creativity and relax from the stresses of school. Through these activities, I have made new friends and discovered my passions. I feel more satisfied and fulfilled. I recommend that everyone try participating in extracurricular activities to make their lives more colorful.
