《黑龙江鹤岗矿井透水，7人死亡》

At least seven were killed and 11 others remained trapped after a flood occurred in a colliery early Wednesday in Northeast China's Heilongjiang province, rescuers said.

??????????????????????7????11????

Twenty-eight miners were working underground when the accident happened at about 7 am, at a shaft of the Junyuan No 2 Coal Mine located in the city of Hegang, said an official with the rescue headquarters of the accident.

???????????????????????????????28?????????????????????

So far, 10 have managed to escape on their own or with help, and rescuers are still searching for the trapped.

?????10?????????????????????????????

The cause of the accident is being investigated.
