一名涉嫌周三在上海地铁站猥亵年轻女子的男子已被警方抓获。这名猥亵男子周围围满了旁观者，他在被地铁保安制止后逃跑了，但是已于昨晚被抓。被猥亵的女乘客当时穿着牛仔短裙，她表示她突然觉得有些热乎的东西掉到了她的腿上，她首先觉得可能是谁的早餐，后来她才发现是站在她右边的一名30岁左右的男子的精液。

A man suspected of molesting a young woman in the Shanghai metro on Wednesday has been apprehended by police.

"The molester, who was encircled by onlookers and was stopped by security guards on the platform, ran away from the spot but was arrested last night," said a publicity officer surnamed Sun from the Shanghai Public Security Bureau.

"Police officers are hearing this case now," he said.

The woman passenger, who was wearing denim shorts, said she suddenly felt something hot falling on her leg when the crowded subway was approaching the People's Square Station — the city's central and busiest station — during morning rush hour on Wednesday.

"I first thought that it was someone's food," she was quoted as saying by Shanghai Morning Post. She later found that it was the ejaculate from a man about 30 years old standing to her right.

The two had an argument on the platform and when she intended to call the police the man ran away.

Police said they are intensifying crackdowns on such incidents, which occur more often in summer.
